- 24/7 Customer Service

Why splurge on luxury furniture rentals?

1. Creates a memorable photo-op moment
2. Fills the space with color and enhances the overall look
3. Allows your personal style to shine through
4. Gives the venue a unique feel and adds character
5. Provides a comfortable place for your guests to take a break from the dance floor

How it Works

Our pieces are rented à la carte, however we work with you to create personalized looks and Mood Boards to help visualize the pieces as a whole. Mood Boards can be based off a color scheme, a certain vibe, a specific item, or anything else you want to showcase on your wedding day! We can recommend pieces and pull together options based on your vision.

We also have curated packages that have proven to be fan favorites. You can use them as inspiration or rent the entire lounge as is.

Let us handle the details

RentQuest will coordinate and schedule the logistics of venue delivery and pick up. Our professional delivery crew is detail oriented, and full service set up and placement is always included!

We know planning a wedding can be overwhelming and we understand the importance of a good client-vendor relationship. We form a trusted partnership with each and every one of our clients - in other words: we've got your back.

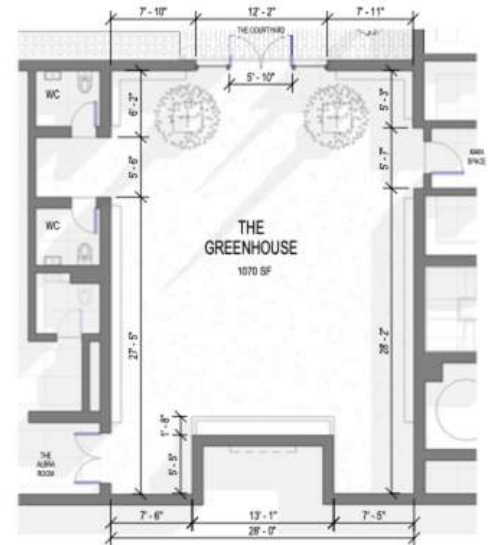

Mood Boards

See your dream wedding become a reality.

Whether it is the ceremony, cocktail hour, reception or after party, we can help you build out the the look that's right for you.
